# OUR STORY

Max Muscle is a well-known reputable company that has been operating in Sialkot, Pakistan for the past ten years. And we, as a company, are paving the route for growth and advancement in the corporate world by focusing on our customers' markets. Revolves around boxing and fitness gear. We are planning to cater to you all with the best products you can imagine and dream of.

***THE PRESENT CEO, AHMED MUJTABA, IS GIVING HIS ALL IN TERMS OF SERVICES, EFFORTS, DEDICATION AND TIME. AND NOW, AS THE SUCCESSORS OF OUR GREAT FOREBEARS, WE ARE LEADING THE WAY WITH A WIDE VARIETY OF PRODUCTS FALLING UNDER SEVERAL CATEGORIES.***

Our line of clothing includes a variety of categories, including combat sports equipment and protective gear made especially for boxing, MMA, and martial arts. Additionally, there are different kinds of clothing, such as Compression clothing, gym fitness clothing, and protective clothing. Many businesses offer the same products as ours, but what drives us forward is our commitment to learning and growing, our flexibility in doing so, and your confidence in us with your money.

WEIGHTLIFTING BELTS

## Neoprene Weightlifting Belt

Breathable Belt  
Extra-Wide 5in

MAX-1000

The support strap provides maximum lower back and abdominal support for heavier lifts. Thick, flexible ultra-light closed cell foam provides maximum comfort and maintains muscle warmth. Heavy gauge steel roller buckle makes tensioning simple and easy; plush tricot lining is comfortable against the skin. Durable abrasion-resistant fabric flame laminated directly to foam core to prevent fraying and pilling.

## Neoprene Weightlifting Belt

Breathable Belt  
Extra-Wide

MAX-1001

The support strap provides maximum lower back and abdominal support for heavier lifts. Thick, flexible ultra-light closed cell foam provides maximum comfort and maintains muscle warmth. Heavy gauge steel roller buckle makes tensioning simple and easy; plush tricot lining is comfortable against the skin. Durable abrasion-resistant fabric flame laminated directly to foam core to prevent fraying and pilling.

## Printed Weightlifting Belt

Sublimated Camouflage  
Extra-Wide 5in

MAX-1002

The support strap provides maximum lower back and abdominal support for heavier lifts. Thick, flexible ultra-light closed cell foam provides maximum comfort and maintains muscle warmth. Heavy gauge steel roller buckle makes tensioning simple and easy; plush tricot lining is comfortable against the skin. Durable abrasion-resistant fabric flame laminated directly to foam core to prevent fraying and pilling.

## PowerBelt

3inch Support

MAX-1003

The support strap provides maximum lower back and abdominal support for heavier lifts. Thick, flexible ultra-light closed cell foam provides maximum comfort and maintains muscle warmth. Heavy gauge steel roller buckle makes tensioning simple and easy; plush tricot lining is comfortable against the skin. Durable abrasion-resistant fabric flame laminated directly to foam core to prevent fraying and pilling.

## Light Neoprene Belt

Heavy Gauge Buckle /  
Heavy Duty Nylon

MAX-1004

The support strap provides maximum lower back and abdominal support for heavier lifts. Thick, flexible ultra-light closed cell foam provides maximum comfort and maintains muscle warmth. Heavy gauge steel roller buckle makes tensioning simple and easy; plush tricot lining is comfortable against the skin. Durable abrasion-resistant fabric flame laminated directly to foam core to prevent fraying and pilling.

### MAX-1083

Pair of Padded cotton lifting straps for weightlifting, bodybuilding, Powerlifting, and strength training. Cushion wrists for heavy lifts, taking pressure off the hands and grip during deadlifts, rows, and snatches. The extended length (21.5 inches) provides a stronger wrap on the bar, and the 1.5-inch width increases contact on the grip surface resulting in less grip fatigue.

## Lifting Straps

For Heavy Training

### MAX-1084

Pair of Padded cotton lifting straps for weightlifting, bodybuilding, Powerlifting, and strength training. Cushion wrists for heavy lifts, taking pressure off the hands and grip during deadlifts, rows, and snatches. The extended length (21.5 inches) provides a stronger wrap on the bar, and the 1.5-inch width increases contact on the grip surface resulting in less grip fatigue.
