MAX MUSCLE

MAX MUSCLE

**IN TERMS OF OUR ORGANIZATION,
WE ARE A HARD-WORKING UNIT OF
THE WORK FORCE, AND A FACTOR
OF CONSTANT INNOVATION WITH
AN ABILITY TO ADAPT TO CHANGES
AND GROW AS WE MOVE FORWARD.**

*Our organization also
reflects the demands
and trends of the current
fashion and sportswear
environment.*

OUR STORY

Max Muscle is a well-known reputable company that has been operating in Sialkot, Pakistan for the past ten years. And we, as a company, are paving the route for growth and advancement in the corporate world by focusing on our customers' markets. Revolves around boxing and fitness gear. We are planning to cater you all with the best products you can imagine and dream of.

THE PRESENT CEO, AHMED MUJTABA, IS GIVING HIS ALL IN TERMS OF SERVICES, EFFORTS, DEDICATION AND TIME. AND NOW, AS THE SUCCESSORS OF OUR GREAT FOREBEARS, WE ARE LEADING THE WAY WITH A WIDE VARIETY OF PRODUCTS FALLING UNDER SEVERAL CATEGORIES.

Our line of clothing includes a variety of categories, including combat sports equipment and protection gears made especially for boxing, MMA, and martial arts. Additionally, there are different kinds of clothing, such as Compression clothing, gym fitness clothing, and protection clothing. There are many businesses that offer the same products as ours, but what drives us forward is our commitment to learning and growing, our flexibility in doing so, and your confidence in us with your money.

Karate

We create custom combat sports products based on your preferences.

EVERY PRODUCT CAN HAVE YOUR PERSONALIZED LOGO AND UNIQUE DESIGN. OFFERED IN A VARIETY OF COLORS.

Due to its compact fit and design for frequent practice of all forms of boxing, Max Muscle boxing gloves provide the best punching power. We guarantee greater shock absorption all over the metacarpal and wrists so you can develop your boxing talents with the least amount of risk of harm. The Impact boxing gloves have a fantastic appearance overall and include a FLEX leather interior with a Vintage finish.

SPARRING TRAINING GLOVES

Designed for regular practice of all types of boxing, SPE boxing, gloves offer optimal punching power due to their compact fit. We ensures a better distribution of shocks throughout the metacarpal and wrists ensuring you will be able to improve your boxing skills with a minimal of risk of injury. Featuring a FLEX leather lining with a Vintage finish, the Impact boxing gloves have a great overall aesthetic.

FIGHT GLOVES

Set your dukes up and prepare for combat. Max Muscle battle gloves will help you to new heights in your profession in combat sports. Exceptionally well-made pro boxing gloves with the optimum fit to protect your hands are made from durable Hide Super Skin leather and a breathable Dazzle fabric lining that has been expertly stitched. When high-density foam cushioning is used, the shock impact is reduced, allowing for the most pleasant power-striking experience.

The combination includes a traditional lace-up closure with impact-resistant foam cushioning over the cuff for improved wrist stabilization and shot protection.

BAG MITT GLOVES

Pro Leather Speed Bag Gloves 2.0 are uniquely made to improve performance, grip, coverage, and delivery during rigorous speed bag practice.

For optimal control and safety while training on the speed bag, medium-density, shock-absorbing cushioning is equally distributed over the finger tips, knuckles, back of the hand, and wrist. Genuine leather is constructed for long-term success. Including a stretchy elastic wrist band,

TECHNICAL FEATURES

- Dissipates impact energy and protects knuckles during training.
- C3 Foam contoured Closed-Cell Foam provides the ultimate knuckle protection.
- Hook & loop wristwrap strap.
- Open fingers for complete flexibility.

KIDS GLOVES

You can trust Max Muscle kid's boxing gloves to keep your kids safe. They are steadfastly sturdy and long-lasting because they are constructed using PU Hide leather. High density Shell Shock GEL is incredibly small and offers the best compression strength. Contoured EVA-LUTION foam aligns to the curve of the object and promotes punch forming rather than inhibiting it.
